The book of funeral, Zakat, Fasting and pilgrimage as amodel.

Baraa Abdalmalik AL-Saidi

Mu'tah University, 2007

This study aims at showing Ibn Hajr;s purpose from the inclusion of paradoxical statements in the above meationed book on the hope that scholars as wellas learners will benefit frem the legitimale laws evidence provided by the majority of scholars in this field. It also aims at adding the jurisparadence dispute to defend the paradox in the authers statements to maintain the avideree. It also shows the value of seardhing in this field and its importance to enhance the tatent and scieatific ability of both scholars and learners. This study shows the importance of dispute among scholars in investigating and defending this paradox to find out new laws and deetorines.

This study highlights the valae and benefit of such dispute to add meney to Imams (leaders) through their variety in definding their different views; as aresnit, the suspicion raised about this glorious religion will be settled by emphasizing the unreality of such suspicion in human mentality which dosen't exist in reality because the truth is something different.

This study introduced Ibn Hajr, the weiter of this book and his scientific statas. It also introdeed his book "Bloogh AL-maram"
; achieving ambition" and his writing style in this book. Then, it briefly studied the fundementals in the cenflicted beliefs and the ways of defending that based on the most believable and credible ones. Such thing served as a prelude to the application of the rules in this book.

The study discussed some juris prudential issues that are paradoxical and by adopting the induetive and analytical approoaches. The study tried to show the difference between scholars in this field; their pieces of evidence were discussed with some focus on the most reliable one.
